

A Civil Discourse Program for Elementary Students

A Free Visit for Your Classroom

Confident handshakes, clear voices, and kind words, brought right to your classroom.

HELLO, TEACHERS!

Big skills start small.

Think&Speak! is an interactive workshop program for elementary students. They build skills to listen to their peers, to speak with grace and kindness, and to speak with confidence, through fun, age-appropriate games and activities.

"Civil discourse means talking and listening in a kind and respectful way, **even when we don't agree.**"

How we explain it to students.

The four fundamentals

The Confident Handshake

A firm grip, eye contact, and "nice to meet you." A confident first impression sets the tone.

Eye Contact & a Clear Voice

Eyes show you are listening. A clear, bold voice shows confidence.

Posture & Body Language

Sitting and standing tall shows confidence and respect for the speaker.

Respectful Disagreement

"I understand your idea, but I see it differently." We can disagree without being unkind.

THE CLASSROOM VISIT

We come to you: activities, games, and a craft

1 Warm Up & Introductions.

2 Skill Development.

3 Group/Partner Practice.

4 A Take-Home Craft.

WHO'S BEHIND IT

Meet Zamina

Zamina Singh

Founder, Come to the Table Project

Junior, Santa Catalina School, Monterey

Come to the Table Project empowers students with tools for civil discourse. We believe we need an exit strategy from today's polarization: dignity and mutual understanding, and eliminating "us vs. them."
